

Fan coil units with BLDC GreenTech technology

**ESTRO GT 1 - 6 kW**

Inverter  
Technology

## PLUS

- ✓ GreenTech Technology
- ✓ Inverter-controlled BLDC motor
- ✓ Low energy consumption
- ✓ Modulating operation
- ✓ Extremely quiet operation
- ✓ Can be integrated into the ERGO
- ✓ Incorporable ioniser

The maximum expression of technology at the service of the hotel industry

GALLETTI's extensive experience in the manufacture of fan coil units and development of refined control logics was combined with the know-how of EBM-PAPST in the construction of fan drive assemblies in order to create ESTRO GT.

The ESTRO GT design was developed specifically for the hotel industry, where fan coil units represent the most convenient solution for air conditioning rooms given that they are efficient, reliable, quiet and simple to maintain. With ESTRO GT it's almost like adding another star!

ESTRO GT uses fan drive assemblies with GreenTech technology, which means BLDC motors directly integrated with the fan assembly and inverter and 70% reductions in electricity consumption compared to traditional AC motors. The low electricity consumption is the ideal solution for installations in hotels, where the fan coil unit is running 80% of the time on average.

The extremely low noise levels and the possibility of continuous modulation of the fan speed fully satisfy guests' needs in terms of flexibility of use and quiet operation. ESTRO GT fan coil units use MYCOMFORT LARGE and EVO microprocessor control panels, which, thanks to the analogue outputs and refined adjustment logics, perfectly control the operation of the BLDC motors and modulating valves.

A wide range of accessories completes the offerings for recessed ceiling installation.

## AVAILABLE VERSIONS

**ESTRO GT FL** Wall mounted with cabinet

**ESTRO GT FA** Wall recess mounted with cabinet

**ESTRO GT CL** Wall mounted with cabinet

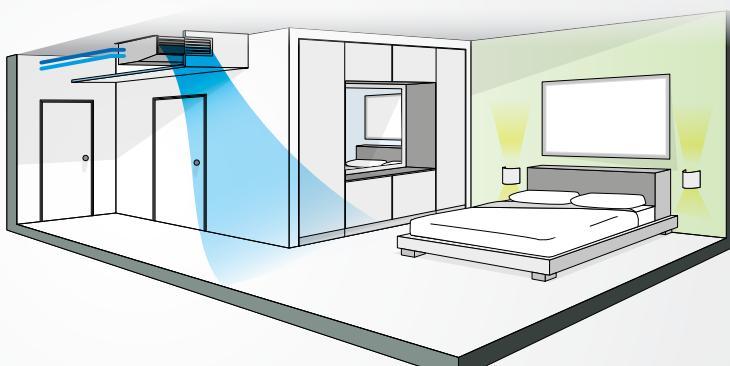

**ESTRO GT FU** Floor and ceiling mounted with cabinet

**ESTRO GT FP** Ceiling mounted with cabinet

**ESTRO GT FC** Vertical / horizontal recess mounted with rear air intake

**ESTRO GT FF** Vertical / horizontal recess mounted with front air intake

Thanks to the high efficiency and reliability guaranteed GreenTech technology, ESTRO GT reduces operating and maintenance costs while maintaining a top level of comfort and minimal noise.

## MAIN COMPONENTS

### Cabinet

Composed of a painted steel sheet panel, side panels, air outlet grille (swinging by 180°) and back suction grille built from ABS.

### Structure

Built from galvanised steel sheet of extra thickness, heat and sound insulated by means of Class 1 self-extinguishing panels. FU – FC – FF versions are suitable for either vertical or horizontal installation thanks to the dual condensate collection and drainage system.

### Heat exchanger

High efficiency heat exchanger made with copper piping and aluminium fins, provided with brass manifolds and vent valve. The water connections are reversible at the time of installation. On request it is possible to mount an additional heat exchanger for 4-pipe systems.

### Air filter

Honey-comb polypropylene washable air filter, easily removable for maintenance operations. On FU version the air filters are fitted onto the air inlet grille.

### Electric fan with GreenTech BLDC motor

ESTRO GT uses the exclusive GreenTech technology of EBM-PAPST. Permanent magnet BLDC motor with inverter integrated in the fan assembly, protection rating IP44, insulation class F and ball bearings. Polypropylene (PP) volute. Centrifugal fan with forward-curving blades made of glass-filled polyamide PA 6. Conformity with 2017 ErP Directive.

## ACCESSORIES

### Wall-mounted microprocessor electronic control panels

**MCLE** MYCOMFORT LARGE electronic controller with display

**KBE** Mycomfort on-board installation kit

**DIST** Mycomfort controller spacer for wall mounting

**MCSWE** Water sensor for EVO, MYCOMFORT and LED503 controller

**MCSUE** Humidity sensor for EVO, MYCOMFORT MEDIUM and LARGE controller

**EVODISP** EVO CLOCK Remote display

**EVOBOARD** EVO 230V circuit board

### Power interface and regulating louver controllers

**CSB** On-board controller for opening and closing the motor-driven regulating louver

**CSD** Recess mounted controller for opening and closing the SM motor-driven regulating louver

### Additional heat exchanger for 4-pipe systems

**DF** 1-row additional heat exchanger for 4-pipe systems (not suitable for "M" models)

### Auxiliary water drip trays, insulating shell, condensate drainage pump

**BV** Auxiliary water drip tray for vertical installation fan coil units

**BH** Auxiliary water drip tray for horizontal installation fan coil units

**GIVKR** Insulating shell for VK1S valve, water connections on the right

**GIVKL** Insulating shell for VK1S valve, water connections on the left

**KSC** Condensate drain kit

### Support and covering elements

**ZL** Pair of support covering elements for Estro FL GT

**ZLG** Pair of support covering elements with front grille for Estro FL GT

**ZA** Pair of support covering elements for Estro FA GT

**ZAG** Pair of support covering elements with front grille for Estro FA GT

**ZC** Pair of support covering elements for Estro CL GT

**ZCG** Pair of support covering elements with front grille for Estro CL GT

**D** Supports for Estro FC GT

### Rear covering panels

**PV** Painted rear panel for vertical installation models with cabinet

**PH** Painted rear panel for horizontal installation models with cabinet

### Grilles

**GE+C** Aluminium external air intake grille, with subframe

**GEF+C** Aluminium external air intake grille, with subframe and air filter

**GM+C** Aluminium air outlet grille with 2-row fins and subframe

**RGC** Plenum with circular collars for air outlet grille

### Plenum and connectors

**RM90** Angular outlet connector

**RM90C** Angular outlet insulated connector

**RMD** Straight outlet connector

**RMCD** Straight outlet insulated connector

**RA90** Angular inlet connector

**RAD** Straight inlet connector

**RMCD C** Air outlet plenum with circular collars

**RAD C** Air inlet plenum with circular collars

### External air intake louvers

**S** Manual external air intake louver

**SM** Motor-driven louver, with motor on the right with transformer

**SM** Motor driven louver, with motor on the left, with transformer

**SMC** Motor driven louver, with motor on the right, for centralised control

**SMC** Motor driven louver, with motor on the left, for centralised control

### Valves

3-way valve, 230V actuator, hydraulic kit for standard heat exchanger

**VK** 3-way valve, 230V actuator, hydraulic kit for DF heat exchanger

3-way valve, 24V actuator, hydraulic kit for standard heat exchanger

3-way valve, 24V actuator, hydraulic kit for DF heat exchanger

**VKM** 3-way valve, modulating actuator, hydraulic kit for standard heat exchanger

3-way valve, modulating actuator, hydraulic kit for DF heat exchanger

3-way valve, 230V actuator, hydraulic kit on heat exchanger side for standard heat exchanger

3-way valve, 230V actuator, hydraulic kit on heat exchanger side for DF heat exchanger

3-way valve, 24V actuator, hydraulic kit on heat exchanger side for standard heat exchanger

3-way valve, 24V actuator, hydraulic kit on heat exchanger side for DF heat exchanger

**VK** 2-way valve, 230V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 230V actuators, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard and DF heat exchanger

**VKM** 2-way valve, modulating actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, modulating actuator, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 230V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 230V actuators, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard and DF heat exchanger

**KV** 2-way valve, modulating actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, modulating actuator, hydraulic kit on water connection side for standard heat exchanger

**KVM** 2-way valve, modulating actuator, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 230V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 230V actuators, hydraulic kit on water connection side for standard and DF heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard heat exchanger

2-way valve, 24V actuator, hydraulic kit on water connection side for standard and DF heat exchanger
